

# BrightPly™ The Smart Choice for Builders and Homeowners.

BRIGHT  
PLY™

## Smart Prices. Clever Lengths. Brilliant Finish. **No Thinking Required.**

BrightPly™ is fast becoming the go-to economical lining ply, combining a radiata pine face with a strong poplar core. The result? A durable, attractive sheet that's easy to work with, cost-effective, and versatile enough for everything from homes and garages to commercial and industrial fitouts. With its clean finish and reliable stability, BrightPly™ makes every project look sharper while keeping budgets under control.

PLY™

## Why Choose BrightPly™ ?

### **Cost-Effective Interior Solution:**

Affordable plywood that doesn't compromise on looks.

**No Sanding Required:** Pre-sanded faces accept stain, polyurethane, oil, and paint — saving time and labour.

**Brilliant Finish:** A 0.5mm knot-free face veneer with WBP melamine glue foundation ensures a smooth, superior paint finish.

**Versatile Applications:** Perfect for walls and ceilings in garages, games rooms, sleepouts, or large-scale commercial fitouts.

**Designed for Interior Use:** Long-lasting beauty and durability for any indoor project.

**Clever Lengths:** Available in 2400mm, 2700mm, and 3000mm sizes for less waste and more efficiency.
